

## The SN2-20

This is a new adjustable tipping stand for your nitrogen Dewar. It offers:

- ✓ A secure tipping of the Dewar
- ✓ A precise liquid nitrogen transfer.
- ✓ An easier way to carry the container
- ✓ A compact storage solution.

- ❑ **Durable material:** The structure of aluminum extrusions is light, robust, and stable. Plastic stripes protect the Dewar paint.
- ❑ **Efficient:** The bottle can be removed from the stand fast and easy. It also can fit under a counter.
- ❑ **Configurable:** It can be fitted to Dewar of up to 50 litres.
- ❑ **Secure carrying:** The trolley has a low centre of gravity. It stands on 4 heavy-duty industrial grade wheels. It can support up to 60 kg.
